SUMMARY

Software Engineer with 4+ years of experience building scalable web applications.
Frontend-focused with React, Next.js, and TypeScript, plus full-stack exposure to Node.js, REST APIs, and databases.
Delivered production systems across multiple business domains, collaborating effectively with product and engineering teams.

WORK EXPERIENCE

Software Engineer
MisMar **April 2025 - Present, Saudi Arabia, Riyadh (Full-time Remote)**

- Developed complex features that improved system stability and scalability.
- Refactored high-impact areas to improve maintainability, performance, and code quality.
- Reduced total Firebase cloud database costs by **85% ~ 90%**.
- Decreased Firebase read operations by **90%** and write operations by **40%.**
- Minimized application memory footprint, CPU usage, and network overhead, boosting overall application speed.
- Resolved security vulnerabilities in system dependencies, closing risks across the application.
- Replaced legacy components across feature screens with the shared component layer, improving consistency and making later changes straightforward.

Technologies: React, TypeScript, React-Bootstrap, rsuite, HeroUI, AG Grid, Tailwind CSS, SCSS, i18n, Formik, Yup, Axios, React-Query, react-mentions, Firebase.

Frontend Engineer
CEQUENS **November 2024 – April 2025, UAE – Egypt, Cairo (Full-time Remote)**

- Worked across several squads, mainly in the Console squad on the core end-user product, contributing to feature development and a UI refactor that improved code quality and performance.
- Maintained legacy features and implemented new functionality in an internal application used by the operations team.
- Contributed to the early-stage development of a new product during its initialization phase.

Technologies: React, JavaScript, Ant Design, Styled Components, i18n, Redux, Epics, Axios, React-Query, AWS, Code Commit.

Software Engineer
STORYME **April 2024 – November 2024, Ramallah – West Bank (Full-time Remote)**

- Developed and delivered key features for a free editor app.
- Contributed to storytelling projects with animated visuals and sound.

Technologies: React, Next.js, TypeScript, MongoDB, Material UI, Tailwind CSS, SASS/SCSS, Vue.js, Redux Toolkit, Redux-Saga, Axios

Reserve Officer (Software Engineer)
Egyptian Armed Forces **May 2022 - April 2024 (Full-time)**

- Worked on ERP systems and report generation.
- Developed new features and enhancements to the Air Defense Forces main website.
- Maintained and enhanced a membership app for El-Nozha Air Defense House covering memberships, activities, and garage management.
- Led a team of 3 engineers to build a technical support app serving the whole region.
- Migrated apps and databases from local hosting to virtual machines in a larger ecosystem.

Technologies: React, JavaScript, TypeScript, Node.js, Material UI, Styled Components, Redux, Axios

Frontend Engineer
Sourcya **February 2022 -May 2022, Sweden - Egypt, Alexandria (Part-time Remote)**

- Developed **Fastore Orders**, a dashboard for order management and calculations.
- Built features for **Cisozen**, a cybersecurity product with tests, dashboards, and recommendations.

Technologies: React, JavaScript, Material UI, Styled Components, Ionic Framework, i18n, Axios

Frontend Engineer
Megadev **August 2021 - April 2022, Egypt, Tanta (Full-time)**

- Developed medicine market e-commerce platform serving users (warehouses), implementing real-time inventory management, and sharing daily price lists.
- Built several landing pages.

Technologies: React, JavaScript, React-Bootstrap, Ant Design, Chart.js, Redux, Axios

Frontend Engineer
Freelancer

- Delivered multiple freelance projects on time with a focus on quality.
- Built a freelancing platform specialized in cybersecurity.

Technologies: React, Next.js, JavaScript, TypeScript, Material UI, Bootstrap, Tailwind CSS, Shadcn, Styled Components, recharts, Aos.js, Zustand, Redux Toolkit, Axios

SKILLS

Languages: JavaScript, TypeScript, HTML, CSS, Node.js, Python, C++

Frontend: React, Next.js, React Query, Formik, Axios, i18n, SASS/SCSS, Tailwind CSS, React Native (Basics), Vue.js (Basics)

State Management: Redux, Redux Toolkit, Redux-Saga, Redux-Observable (Epics), Zustand

UI Libraries: HeroUI, Material UI, Ant Design, React Bootstrap, rsuite, Shadcn, Styled Components, AG Grid

Backend & Databases: Node.js, Express.js, Prisma, Sequelize, MongoDB, MySQL, SQL, Firebase, JWT, REST APIs

Tools: Git, GitHub, AWS CodeCommit, CI/CD, AWS, nginx, Heroku, Netlify, Vercel, Expo, Figma, Adobe XD, Jira, ClickUp, Trello

EDUCATION

B.S. in Computer Engineering and Automatic Control
University of Tanta • Egypt • 2021

- Total grade: **Good**.
- Graduation project grade: **Excellent**.

LANGUAGES

- **Arabic**: Native language.
- **English**: Professional working proficiency.
